

Questionnaire

If you are planning to book a party with Belladonna, the best thing for you to do is to answer these questions to be reviewed so she can better accommodate you & save you time. This will only take 2 minutes to complete! This will give her a better understanding of what you are looking for. She and her company take pride in the quality of service they provide & have a very good reputation to live up to.

We take this very seriously and this is the latest in our attempts to make the process of booking entertainment a lot easier and stress-free. Many misunderstandings happen during phone conversations. This way, everything, or almost everything, of the important stuff is addressed first & small details later. We also need to know who you are & how you found us & be able to feel comfortable with you as well. We are looking forward to giving you our very personalized attention.

She would normally ask you to call & ask you these questions on the phone, but this saves us all time. If you want, you can still call on the phone 212-802-4805, especially if this is a short notice event or for any other reasons.
